

Properties of Lead for Radiation Shielding

Phone: 877-898-3003/914-979-2740

Email: sales@mediray.com

Website: www.mediray.com

Lead is an excellent shielding material because of its following properties:

High density

Lead is an excellent shielding material because of its following properties:

High atomic number

Lead is an excellent shielding material because of its following properties:

High level of stability

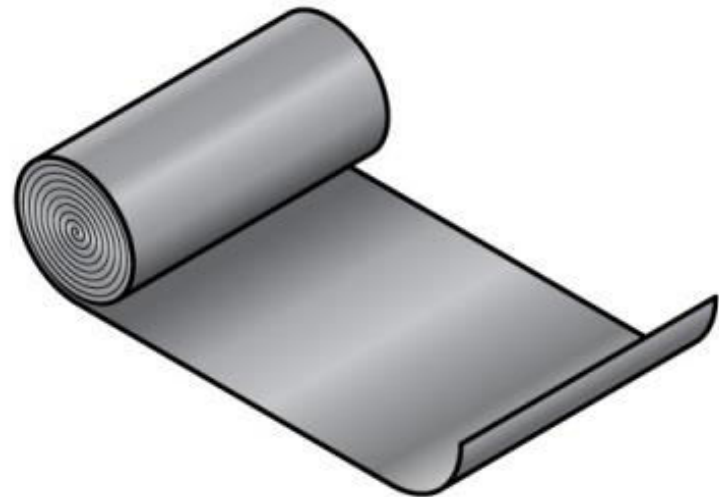

Lead is an excellent shielding material because of its following properties:

Ease of fabrication

Lead is an excellent shielding material because of its following properties:

High degree of flexibility in application

Lead is an excellent shielding material because of its following properties:

Availability

Medi-Ray™, Inc. has been providing customers with over 35 years of metallurgy expertise in custom and precision lead shielding products produced with proprietary equipment.

For all your radiation shielding needs, contact us today.
