Website: [www.mediray.com](http://www.mediray.com)

- Medi-Ray produces a wide range of lead materials in sheet form for the shielding of nuclear medicine facilities and X-Ray rooms.

- Our sheet lead shielding materials are thin antimonial lead foils.
- They adapt well to thin contoured applications such as electrical shielding.

- Our sheet lead is also available in thicknesses perfect for walls, doors and ceilings.
- To meet the heaviest duty shielding needs, we also provide lead plates.

- Medi-Ray is the specialist in shielding solutions.
- We can meet all your sheet lead shielding needs.
